with my desire to help people.

EXPERIENCE

CareerFoundry *Nov. 2020 - Aug. 2021*

UI/UX Design Student

- Completed in-depth exercises in UI design fundamentals and user experience research processes
- Designed user interfaces for multiple projects from concept to final mockups and handoffs. Including: detailed UX research, wireframing, prototyping, as well as branding and visual styling
- Completed a course in frontend development; learning HTML, CSS & JavaScript

MRI Technologist *2011 - Present*

Indiana / Colorado / Oregon

- Provide excellent patient care; often supporting claustrophobic patients through MRI exam
- Train new hires on MRI scanner interface, MRI fundamentals and facility protocols
- Technically sound with a strong understanding of MRI parameters; build and maintain protocols on multiple scanners
